ensapBx singularity

Two disciplines : architecture and landscape

Rich scientific activity : 3 research units, linked to university and CNRS

Strategy of connecting with society and other disciplines

- Academic partnerships : Universities of Bordeaux, Sciences Politic institute of Bordeaux, ENSAM, école des Beaux-Arts, 2 schools of ingeniering...
- Public partners : Bordeaux Métropole, Ville de Bordeaux, Parc naturel des Landes de Gascogne, Conseil Général de la Gironde, Environmental service from the State, Euratlantique...
- Professional and cultural partners : ordre des architectes, fédération française du paysage, Maison de l'architecture 308, arc-en-rêve (cultural center), biennale AGORA...
- Clusters : INEF4 (energy transition in building), Xylofutur (wood), Creadh (sustainability building), Forum Urbain (metropolis development)

ensapBx singularity

Internationally connected

- 60 partnership all over the world : 70 % of graduate students have an international experience
- Associated to the cooperation program of Bordeaux Métropole : Hyderabad (Inde), Guanajuato (Mexique), Douala (Cameroun), Santiago (Chili), Rosario (Argentina)...
- Joint programs with San Sebastian (Espagne), Tianjin (Chine) and Hanoi (Vietnam)...

Diversity and social strategy for students

- National program « Égalité des chances » (fondation Culture et Diversité)
- Local program « l'architecture au collège », with 15 high schools every year
- Experimental public program : learning architecture in high school with lycée Montesquieu in Bordeaux.

2/ Research units

Research and doctorate

Unité Mixte de Recherche (UMR-CNRS) PASSAGES

- Joint research unit : CNRS + 3 Universities of Bordeaux + ensapBx (150 academics, geography, planning, history...)
- Theme : spatiality and global changes
- 25 academics from ensapBx
- Doctoral school Montaigne Humanités, doctorat in « architecture et paysage »

Laboratoire PAVE (profession, architecture, ville, environnement)

- Associate laboratory to UMR-CNRS Centre Emile Durkheim (100 academics / sociology and political science)
- Theme : metropolisation and social mutations
- 5 academics from ensapBx
- Doctoral school : Sociétés, Politique, Santé Publique, doctorat mention « Sociologie », option « architecture »

Research and doctorate

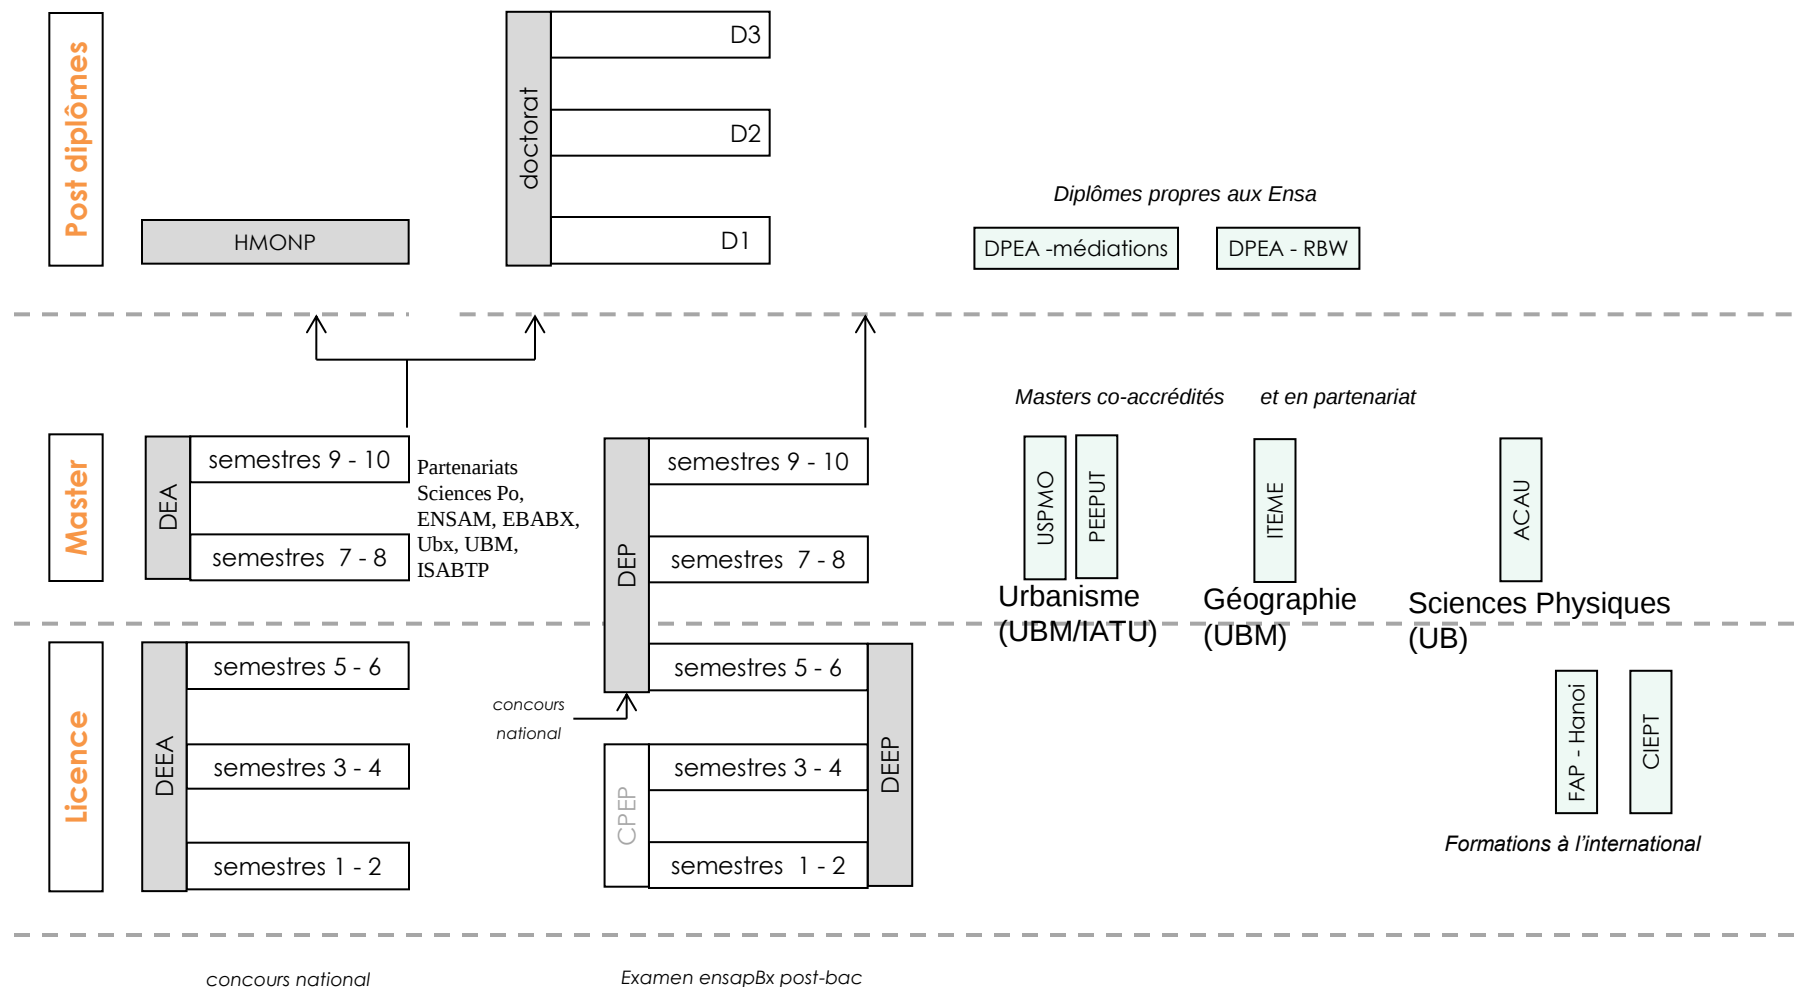

GRECCAU (groupe de recherche environnement, confort, conception, architecture et urbanisme) :

- Associate research team to UMR-CNRS I2M (200 academics)
- Theme : ambiances, comfort, sustainability
- 5 academics from ensapBx
- Doctoral school : physic sciences and ingeneering

3/ Teaching

Organigramme des formations 2016 - 2020
