

European Association for Architecture Education

Personal statement regarding duties of Vice President of the Council

Prof. Nicolas Pham

I would be honored to bring my contribution to the success of the development of EAAE by representing it from the position of Vice President of the Council following the art. 24-27 of the EAAE Statutes.

I will be dedicated to the *Execution of the Association's general policy and thus the regulations and methods of applying it*, having been delegate from my school Architecture to EAAE from 2009 until now, participating in voting sessions about policy making. I have a deep knowledge of EAAE policies and their application.

Deciding for this position within the Council, I will obviously take over the tasks of *Organizing the Association's activities, in particular the conferences, seminars and fora*, all of which I consider absolutely central to the role the Council dedicates itself to. It is where issues are raised, discussed, promoted. I have forwarded these very issues within the Swiss Architekturrat, which at its size and level, acts the same way with same objectives, as well as from a leading position within the different Master and Bachelor programs of the Universities I have been teaching in.

As Head of Architecture and member of the directorate of my University, I have the experience of *Raising funds and supervision of the use of these funds* within the institutes and the University's global strategy and as well as *Preparing the annual report and the accounts to be presented to the General Meeting*.

Thanks to my wide network, I am confident at *Proposal of candidates of members of the Council to the General Meeting* as well as bringing new schools to EAAE, notably the French schools of architecture.

My involvement in the role of leader in different positions, at University, faculty, program, association, administration levels makes me experienced in *Setting the internal rules*.
